

SLV Sprint — Follow-up Analysis

Window: 3/12/2025 – 3/12/2026. **Source:** *secure.order_source*. **Customer unit:** ship-to CMF. Universe is CMFs that placed at least one order in the window.

1. Distributor Exclusion (Listcode 97)

Listcode 97 (Distributors) is excluded from the analysis universe going forward.

Listcode	Group	CMFs	Share
97	Distributor	21,062	3.7%
≠ 97	All other CMFs	545,030	96.3%
	Total	566,092	100.0%

2. R1 Threshold Sensitivity

R1 currently excludes CMFs with 10 or more active ordering contacts. Table shows what happens at higher thresholds. Distributors already removed.

Threshold	Eligible CMFs	% CMFs	Eligible Orders	% Orders	Excluded CMFs	Excluded Orders	% Excl.
10 (current)	532,692	97.7%	12,696,477	74.8%	12,338	4,288,607	25.2%
12	536,042	98.4%	13,207,047	77.8%	8,988	3,778,037	22.2%
15	538,906	98.9%	13,717,234	80.8%	6,124	3,267,850	19.2%
20	541,297	99.3%	14,226,992	83.8%	3,733	2,758,092	16.2%
25	542,518	99.5%	14,554,315	85.7%	2,512	2,430,769	14.3%
50	544,279	99.9%	15,232,307	89.7%	751	1,752,777	10.3%

Marginal gain per step up

Step	CMFs gained	Orders captured	Avg orders / added CMF
10 → 12	+3,350	+510,570	152
12 → 15	+2,864	+510,187	178
15 → 20	+2,391	+509,758	213
20 → 25	+1,221	+327,323	268
25 → 50	+1,761	+678,000	385

Each step admits denser CMFs (152 → 385 orders/CMF). The 751 CMFs with 50+ contacts still cover 10% of orders — they will never qualify on contact count alone.

3. Listcode Breakout — R3 Components

Breaking out the R3 exclusion list (gov / college / distributor) by individual listcode so each can be evaluated separately.

Listcode(s)	Category	CMFs	Orders	% of orders
01, 02	Regular / National	264,498	13,105,658	75.4%
14, 15, 90, 98	Other (Interbranch / Employee / Claims)	143,148	2,014,670	11.6%
11, 12, 13	Export (Mexico / Canada / RoW)	49,339	1,090,799	6.3%
97	Distributor	20,870	408,064	2.3%
08	Municipal / Private Institute	13,920	221,551	1.3%
07	State Gov't	6,535	187,171	1.1%
09	Private College / University	2,374	113,266	0.7%
03	Utility	4,101	87,226	0.5%
05, 06	Fed Gov't (Domestic + APO/FPO)	3,021	59,564	0.3%
10	Hospital	2,268	31,392	0.2%
04	Railroad	697	13,460	0.1%
—	Unknown (codes outside the standard list)	53,469	54,930	0.3%

R3-relevant rollups

Listcode(s)	Group	CMFs	Orders	% of orders
05 + 06 + 07 + 08	Government — all	23,476	468,286	2.7%
05 + 06 + 07	Pure government (no Municipal)	9,556	246,735	1.4%
09	University / College	2,374	113,266	0.7%
10	Hospital	2,268	31,392	0.2%
97	Distributor (excluded per Action 1)	20,870	408,064	—

Distributor is the largest single R3 group — bigger than government and university combined. Excluding it (Action 1) leaves a much smaller R3 footprint of ~26K CMFs and ~613K orders (~3.5% of in-scope volume).
