

Shipping Location View · Compounding-Rule Impact

Today, ~471,000 contacts have access to Shipping Location View. 97.7% (~460K) were enrolled automatically by the algorithm; 2.3% (~10,700) were added manually by Customer Service.

Each Venn below shows the volume EXCLUDED from Shipping Location View by our four eligibility rules — measured three ways.
Circles are the rules; overlaps are contacts / orders / CMFs caught by more than one rule at once. Bigger regions = more excluded.

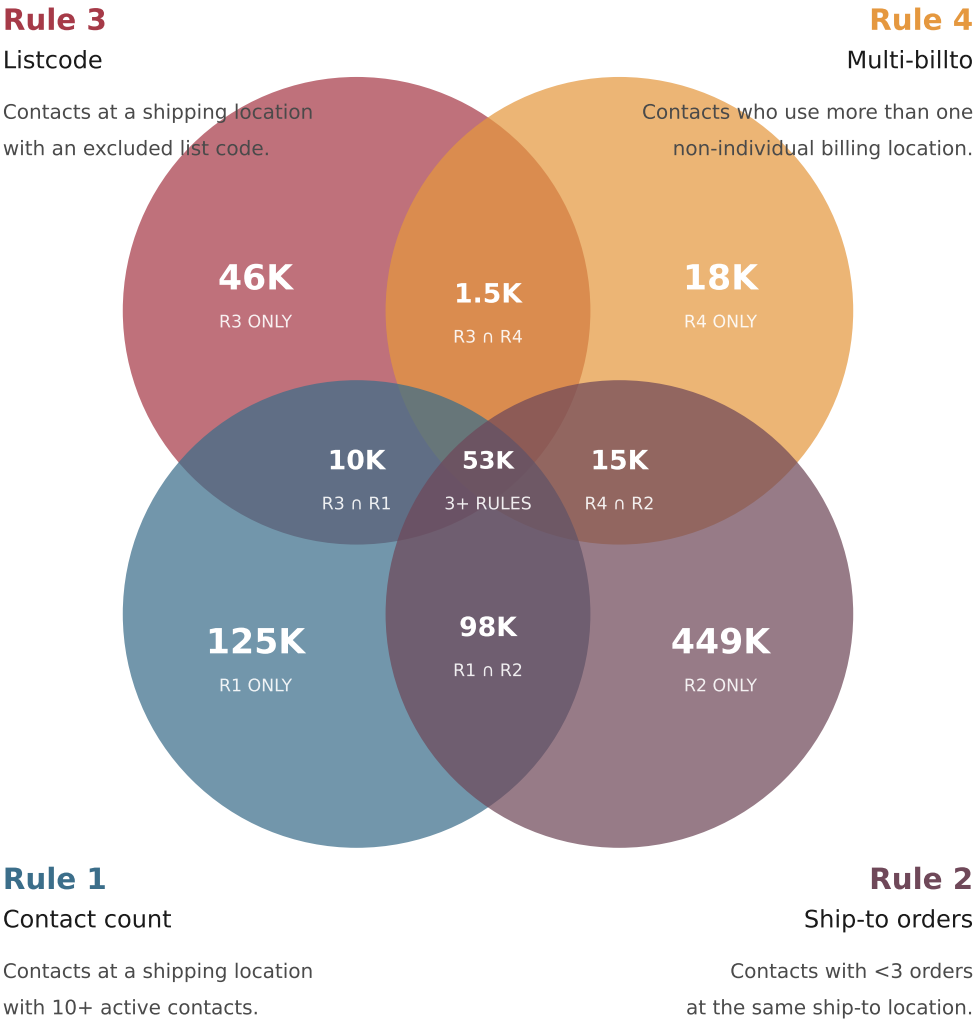

Orders Blocked

Universe: 17.0M contact-attributable orders (12-month window)

Contacts Affected

1.39M active contacts · ~500K placed an order in the window — breakdown of those below

Shipping Locations (CMFs)

1.15M active CMFs · ~555K received an order in the window · a CMF is counted if any contact at it is caught by a rule
